MISSION STATEMENT FOR BRIDGEHAMPTON UNION FREE SCHOOL DISTRICT

We, as Bridgehampton community members, are responsible for and benefit from comprehensive education.

The purpose of the Bridgehampton School is to provide an educational system which will serve our community and develop responsible citizens who are self-motivated, life-long learners. To achieve this purpose, we will expand opportunities for positive involvement in our educational system by community members, parents, teachers, and students.

To prepare our students to lead productive lives in the future, we will strive to develop literate individuals who are caring, confident, and open-minded. We are committed to programs and an atmosphere that nourish academic excellence, social awareness, and moral responsibility and a preparation for responsible career choices.

In addition to the traditional 3R's and computer competency, our curriculum will focus on critical thinking, effective communication, problem solving, the enjoyment of reading, and an appreciation of the visual and performing arts.

Our ultimate goal is that our students will realize their maximum potential and demand nothing less than excellence from themselves, from each other, and from the community.

INTRODUCTION

The parties to this Agreement are committed to the Mission Statement of the Bridgehampton Union Free School District and pledge joint support and effort to develop the conditions for success pledged therein. This Agreement was developed and should be viewed as an important part of our collective efforts to ensure that the Bridgehampton Union Free School District is successful in achieving its Mission.

Both parties to this Agreement endorse opportunities for all employees to become involved in the decision making process. This decision making process shall include open dialogue in which issues are presented, defined, discussed, and resolved. This shall be a process in which those affected by a decision participate, either directly or through representation of their choosing. Employees are expected to contribute to the educational environment of the District through various "AD HOC" continuing, and developing groups in areas of professional expertise where decisions are made which significantly impact the educational environment.
